

December 22, 2020

Dear Residents, Designated Representatives, and Tenants:

For months we have been closely watching news of the *COVID-19* vaccine trials and have been eagerly anticipating the availability of a vaccine. As you may have heard, both the Pfizer and Moderna *COVID-19* vaccines have received FDA approval for use. The availability of these vaccines, which have shown 95% effectiveness against *COVID-19*, marks a turning point in the pandemic and provides the opportunity for a return to normalcy.

Vaccination efforts will be moving quickly. We stand ready to move! We have partnered with Walgreens and CVS pharmacies who will be administering the vaccine at our communities. In support of our efforts to be ready to vaccinate our residents and tenants who wish to be vaccinated, please review the attached *Fact Sheet for Recipients and Caregivers – Moderna Vaccine* and follow the instructions for completing the *Vaccine Administration Record (VAR)* consent and return it to the executive director or designated member of management within 48 hours of receipt. Community team members will be reaching out to our residents, their designated representatives, and tenants to discuss upcoming vaccination events and to coordinate obtaining informed consent to be vaccinated, which may be provided verbally and via email.

We are at a critical juncture of the pandemic. With cases surging, healthcare systems at and beyond capacity, it is crucial that you stay informed about vaccination opportunities and are prepared if you are a resident or tenant who wishes to be vaccinated at a community vaccination event. To assist you in this preparation, please read the *COVID-19 Vaccine News You Can Use* newsletters for information. You may access previous issues of the newsletter, which includes answers to commonly asked questions about *COVID-19* and the vaccines, under the [COVID-19 Action and Info Center tab](#) on New Perspective's website at [www.npseniorliving.com](http://www.npseniorliving.com).

Informing all residents and designated representatives of the vaccine clinics is a top priority. However, please understand, it is not feasible to contact every non-designated family member. Our focus must remain on coordinating the logistics of vaccine events. Subsequently, we are asking for your help in communicating this news to other family members.

If you have any questions, please do not hesitate to reach out to your executive director.

Sincerely,

Chris Hyatt  
President
